Barry Preparing to Rout the Powderly Followers.

Still There Is a Feeling that the Scranton Man Will Be Re-elected.

If He Is He Will Probably Select His Associate Officers.

[SPECIAL TO THE EVENIES WORLD.]
INDIANAPOLIS, Ind., Nov. 16.—As the General Assembly of the Knights of Labor gets nearer to the real business before it the warring factions speculate more and more upon what the eight of ten days are likely to bring forth.

Mr. Barry states that he is still neutral, but it is well known that be has not been idle since he reached this city. He is almost continuously in conference with his

friends, and from delegates who have a seat upon the floor of the Convention he learns exactly what is going on in the inside.

There is reliable information that Barry is secret ly working up a scheme to undermine the General Assembly as it is at present constituted, and he confidently expects to completely rout the Powderly grown before another week has passed. Barry had hopes that his appeal might be acted on yesterday, and he was considerably disap-

Fowderly has a majority of delegates, and the General Raster Workman's action in expelling Barry will, therefore, be statished.

The music will then begin.

Some predict as open revolt without delay unless Barry is given a hearing. Barry himself expects to be beaten in the Assembly, and has therefore written an open letter to Powderly which he will give to the public and mail to every local assembly in the country.

He will also send a request to every local assembly to refuse to have any correspondence with the present administration.

ZOWDERLY CAN BE RE-RESOTED. The friends of the Powderly administration have looked about and counted noses. They say that if Powderly speaks the word he will be re-elected General Master Workman.

Somebody is going to be disciplined, or there will be more dissatisfaction than there is now.

The address of General Master Workman Powderly has encouraged his friends, who say that if Mr. Powderly will accept a re-election he can have it, with but a mere shadow of opposition.

Further than this even, they say, he will be forced to accept it, as the caim and conservative majority in the Goysention announce that ha is the care.

"It is true," he said, "that I have been requested to enter the contest, but I have absolutely declined to permit my name to go before the Convention, and it will not be presented."

Mr. Quinn, when asked his opinion of the possible outcome of the election, said: "Powderly can be General Master Workman if he wants to."

John Jarrett, James E. Quinn, George Schilling and W. S. Lewis have all fallen out of the race, and if nothing happens during the next forty-eight hours Mr. Powderly will listen to the earnest solicitations of his friends, accept a renomination and have a clean walkover.

POWDERLY MAY NAME HIS ASSOCIATES. Barly next week a resolution will be introduced granting Mr. Powderly the right to select his own associate officers during the ensuing term, and it is quite possible the General Assembly will accept the proposition by an encouraging majority.

The reporter's ring at the bell was answered by a trim servant, who inquired what was wanted. On being told the object of his call, the girl said that Mr. and Mrs. Robinson were at breakfast. Mr. C. D. Arnold, a photographer of S. East Fourteenth street, this city, met Dougherty when he was called abroad in March, 1897. He left New York on the Elimira on the Saturday following the now historical blizzard, and on arriving at London stopped at the Tueen's, in Euston road.
Dougherty arrived at the hotel a few days later than Mr. Arnold. He wore a big slouch hat and a dark blue overcost, with Cape. His baggage included an enormous trunk, which had to be left in a lower hall for the simple reason that it couldn't be gotten upstairs.
